

Gawler track upgrade

gawler station pedestrian crossing temporary closure

Dear Sir / Madam,

As you will be aware, the Gawler rail line upgrade between Mawson Interchange and Gawler commenced in September 2011. As works near completion, track upgrade works are being undertaken in the vicinity of Gawler Station.

In order to move heavy equipment safely through this area, it will be necessary to **close the pedestrian crossing at the northern end of Gawler Station for three days from Thursday 16 February 2012.**

A shuttle bus service will be provided to transport pedestrians from one side of the tracks to the other during periods of closure. Rail safety personnel will be available on site to assist pedestrians.

Between the hours of 4.50am and 7.30pm an accessible bus able to accommodate electric wheelchairs or scooters and other large mobility aids will be provided. Outside these hours, persons requiring accessible transport should advise the supervisor on site or alternatively, please call 8282 7900 in advance for arrangements to be made for accessible transport.

Pedestrians wishing to travel on Adelaide Metro services departing from the Gawler Station car park are advised to allow extra time to cross the line from the western side of the tracks.

Substitute bus services are scheduled to meet passenger trains at Mawson Interchange and will not be re-scheduled during this period.

Every effort will be made to minimise inconvenience and the Department appreciates your patience and understanding while these important works are undertaken.

If you would like further information, please call the project information line on 1300 782 454 or email dpti.rr@sa.gov.au. For public transport information, please call Adelaide Metro on 1300 311 108.

Yours sincerely,

Paul Burns,
Project Director
