Sample and Methodology

The sample size was derived from the number of trips supplied in any given week, with separate sample sizes defined for each contract area, given the sample size the number of trips deemed appropriate to give a valid sample is stratified across the day types based upon their respective proportion in a given week.

Between the 1st October and 31st December 2012;

• 378 audits onboard Torrens Transit services.

The trips audited represent **2.5%** of the **15,147** trips supplied (defined as the number of trips available for five weekdays, plus a Saturday and Sunday) for one whole week Sunday to Saturday. The sample base is selected from trips listed on PTS approved timetables submitted by Torrens Transit.
